National Finals ,

Total cost: **£10,278.**
 (£10,150 Sports Premium funding + £128 from School Fund.)

Impact of purchases on pupils

New Athletics Equipment

The equipment bought was identified as being needed for changes to our athletics provision to have maximum impact. It has been used in lessons for all year groups to develop agility and balance in the lower years and more specific skills in KS2. It has also enabled the children to train for Sportshall Athletics competitions, contributing to the school team becoming county champions and placing 3rd and 4th at Level 3 regional competition. The Quad Kids teams also finished 2nd and 4th at regional level.

New gymnastics equipment

This has allowed for old, damaged equipment that could no longer be used for safety reasons to be replaced and used in all year groups. Pupils have been able to develop their skills more effectively, using appropriate, safe equipment. Our extra-curricular clubs have been able to develop more advanced skills, which were demonstrated in a display in the opening ceremonies of our sports days.

New General Sports Equipment

Every PE and Games lesson has had enough high quality equipment available for effective learning to take place. This has resulted in higher quality learning taking place across the school and has added to the children's excitement about sport and PE. Children have been able to try sports they previously did not have the opportunity to. We have been able to introduce additional extra-curricular clubs (e.g. a second football club and second netball club).

School Sports partnership

Again we decided to opt in to the South Hunsley School Sports Partnership and this decision has been fully justified. The events organised at the local secondary schools, the county finals and the regional finals have been well organised and enjoyed by a large number of our children. We have taken part in a wide range of sporting events (football, biathlon, cross-country, sports hall athletics, swimming, quad kids, rounders, netball and tag rugby). This level of variety and competition is why we will continue to opt into the partnership as the children, staff and parents all agree it is a great opportunity for the children to play competitive sport. Furthermore, our staff have taken advantage of the free CPD training sessions offered as part of the membership, developing their skills in teaching gymnastics, orienteering and multi-skills in particular.

Year 5 Outdoor Team Challenge

Comprising of various team challenges involving kayaks, ropes, water and fire, this day provided the children with adventure sports that cannot be taught without specialist instruction, equipment and physical resources. The day was led by a specialist in teaching such activities and was a superb day that provided the children in Year 5 with an exciting part of the curriculum that would otherwise not have been possible to cover.

Swimming Teacher Qualification (ASA) for Sport Coordinator

This has made it possible to train teams to a high level in swimming (regional finalists) and biathlon (ranked 4th in Great Britain). It has also allowed us to make provision in future years to give additional swimming lessons to children who would otherwise not be able to swim 50m. by the time they leave Year 6. This will be implemented in September, 2015.

Transport

Being able to pay for transport (including self-drive minibus for smaller teams and double decker buses for off-site intra school events such as biathlon) has allowed children who would not otherwise have been involved to take part in inter-school competitions and events, increasing the percentages of children involved across the whole of KS2.

Competition Entries

By paying competition entry fees, our children have had access to a higher level of schools sport. In the case of biathlon, we were able to qualify for and subsequently enter the national final at Olympic Park, London, at which our school placed 4th in Great Britain in the U11 boys category! This has given us the opportunity to really stretch our more able children in particular.

Intra-school biathlon

Organising our own biathlon, run by school staff at a local leisure centre allowed every child in years 3 to 6 compete in a different sport, as well as providing them with the opportunity to achieve qualifying times for the county final. This event above all others raised the profile of sport in our school this year, as it involved so many children. We will continue to include this in our programme of intra school sport.

Staff Accommodation and Transport for National Biathlon Championships

Without paying for this, it would not have been possible for our qualifiers to get to the very top level of competition or have the opportunity to compete in such prestigious a venue as Olympic Park. This event took place on a Sunday and due to the distance, it would have been unreasonable to expect staff members to travel to London for an 8:00am start to manage the team.

Pool Hire

As we do not have a swimming pool, this allowed us to take children to train for swimming competitions and biathlon.

Cover for staff

This has allowed staff to be released in order to develop their own teaching, to staff sports events and to allow the sport co-ordinator a small amount of time to organise events, resulting in higher quality provision for all children.

% of children involved in Extra-Curricular competitive Sport (exc. Sports Day)						
	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17
