**Your child's mini-report**

**Dear Parent/Carer,**

Your child's mini-report has been sent to you. This is a format we started to use last year to enable reporting to have some parental involvement. Normally we would be having a parent's evening at this time and the teachers would be filling in the October part of the document as a basis for the meeting. Parents and Carers would then be able to put their own comments after hearing the discussion and this would be added to the October section.

The rest of the report will be filled throughout the year using the same method at the Spring parents evening and then the final report will finish the whole document. This provides you with a full record of the interactions you have had with the class teacher at parent's evening and hopefully feel part of the process.

As we will not be meeting face to face at present with your class teacher, you can read the October part of the report and send your comments back once you have had chance to read it. If you require further discussion, you can ask for a telephone appointment using ClassDojo and this will occur after the half term where you will be allocated an appointment time.

The teachers and children have been working hard under difficult circumstances and the report is based on what they know at present. They will also give you ways forward to support your child's learning.

Thank you for your continued support,

Keep Safe,

Mr Church
